

CITY OF LOS ANGELES
INTER-DEPARTMENTAL CORRESPONDENCE

DATE: March 18, 2020

TO: All Parking Enforcement Personnel

FROM: Devon Farfan, Chief 
Parking Enforcement and Traffic Control Division

SUBJECT: PARKING RELAXATION FOR COVID19 - REVISED

The Mayor made a new announcement yesterday, March 17, 2020, that there would be additional parking relaxation throughout the City of Los Angeles. The following will be relaxed:

- Street Cleaning in residential areas
- Overnight Parking Districts/Oversized Parking Districts
- Abandon Enforcement/Towing
- DP Task Forces will be discontinued
- Scofflaw Enforcement and towing will be halted
- No School zone enforcement
- Peak Hour enforcement and towing

We will still be enforcing the following:

- Meters
- Street Cleaning in commercial areas
- Temporary tow away zones (including slurry seal)
- Preferential Parking Zones
- Time Limit
- Loading Zones (please ensure that all are given observe times per policy)
- Safety violations
- Code 37 Impounds (visible inventory only, no searching of inside vehicles)

It would be impossible to name all the violations that we handle, therefore, when in doubt you should always place a warning card and check back with your immediate supervisor.

Remember to practice social distancing. We should not be meeting in any groups larger than 10 persons and we should remain at least 6ft distance (approximately 2 arm lengths apart). Thank you everyone for your cooperation during this difficult period. We will keep you posted if there are any changes.
